NEWSPAPER IS CALLED 'BEST AD' MEDIUM

Syracuse, N. Y., Jan. 31 (AP)—The part played by newspaper advertising in America's present commercial position was emphasized by William A. Thompson, director of the bureau of advertising, American Newspaper Publishers Association, in an address today before the New York State Publishers Association.

"Newspaper advertising," he said, "is the link that has connected seller and buyer in the scheme of mass production. It has brought the amazing buying power of the American people into contact with the equally amazing production power of the American manufacturer."

OWN FUNCTIONS
"The newspaper is the great advertising medium, because it has measured up to a particular economic task with functions that are exclusively its own. We often have called it the universal advertising medium, because it is the vehicle of communication between the seller of most things and all of their buying public."

"Whatever else may interest, entertain, inform or influence certain portions of the population, newspapers furnish the one known vehicle of contact with the universal buying public which obviously includes the parts. Thus, all mediums are duplicated in their circulation and their influence by the all-inclusive circulation of newspapers. Everybody reads the newspaper. It is the vehicle for news—news of the world, news of the nation—represents its great popular appetite, which is satisfied every day by the press."

MILLION A DAY
"The American people spend about a million dollars a day in pennies to buy their newspapers while advertising is an expenditure more than two and a quarter million dollars per day for newspaper advertising."

"The money paid out each 24 hours in newspaper pennies is a mathematical determination of a universal, fixed daily habit of newspaper reading. The enormous sums spent every day for newspaper advertising show how well advertisers understand the universal opportunity the newspaper reading habit offers to them."

"Wealth, buying power, and education are concentrated where only newspapers are published. It is a fact that the automobile business began its growth toward its present day proportions after it turned to newspaper advertising. Car makers learned that only through the newspaper could every motor car prospect be reached. They recognized their power and greater opportunity when they realized fully the vast army of new prospects created by the new era of national prosperity."

Peace to Come Like Light Says Baldwin
London, Jan. 31 (AP)—"We are still in the experimental stage of Christianity," said Premier Stanley Baldwin at a dinner celebrating the English Union establishment of a centenary pension fund of \$1,500,000. "We have been trying only 2000 years. Many of us have made a mess of it, but that is no reason why we should not start again."

"I believe peace will be granted only as we grip our other instincts and light will spread to make our democracy a true democracy."

Hopeless, Starving, Then—It's the Prince

Newcastle-on-Tyne, England, Jan. 31—Heart sick and some times horrified at the conditions which he has found in his three-day tour of the northern coal fields, where unemployment is rife, the Prince of Wales has been deeply touched by the bravery and patience of the suffering workers.

Winding up his visit to dozens of mining villages where poverty and hunger struck him at every turn, the prince seemed to sum up his impressions in a remark which he made this afternoon to the mayor of Durham, whom he met at a luncheon.

"I have been deeply touched by what I have seen of the bravery, patience and hope of these poor people. It has been very difficult to know what to do to solve this most pressing problem."

Streets outside the station hotel were filled with cheering crowds when the Prince of Wales at 9 a. m. today left for the Ribblesdale area of county Durham on the last of his tour of the northern coal fields. The route took him through communities where unemployment and distress have been long and acute.

IMMEDIATE AID
During his journey through Durham and Northumberland through mining villages and over roads deep with mud, the prince has visited many miners' cottages and talked with members of distressed families. In many instances, where misery was acute, the prince ordered immediate relief committees for the cases to pass through the official channels where there might be undue delay.

A secretary who accompanied the prince to the throne made lengthy notes at the suggestion of the prince. In many cases relief was furnished by the London relief fund, of which the prince is royal patron.

He found one family where the mother was deeper over not having enough money to pay a dog license than she was over lack of food for her children. This situation was relieved at once when one of the officials with the prince gave the necessary money for the license.

The prince visited a cottage where Sam Whetton, a former miner, was lying blind and helpless. His sight had been destroyed a colliery accident three years ago.

CHASTLY SIGHT
When Sam extended a wasted hand, the prince said to all, your helplessness, but I thank you for calling me.

The prince grasped the outstretched hand. For a moment he stood silent, looking down upon the stricken man, an expression of sadness on his face. He then turned to Sir Geoffrey Thomas, his personal secretary, and exclaimed:

"This is ghastly. The prince glanced about the room. Whetton lay upon a bare pallet. His wife was upon another cot beddies from a broken bed. The room was bare and cold. There was no window light. The stove was cold and a few cracked dishes stood upon a bare pine table.

The wind roared outside and the gloomy room was cold. Whetton and his wife are penniless. They were ordered evicted from their home because they cannot pay the rent. The cottage belongs to the colliery for which Whetton once worked.

SLEEP ON FLOOR
"I do not know where we will go for shelter," said the miner. "I am sure we are beyond caring."

The prince ordered a maid to take the miner and his wife to the hotel. They were to be cared for. Then, with a sigh, he turned from the place.

CLAIM VICTORY FOR MELLON IN 'DRY' FIGHT

By WILLIAM B. NEAL
International News Correspondent
Washington, Jan. 31—The veteran Secretary of the Treasury, Andrew J. Mellon, will survive another congressional effort to curb his powers when the House voted on the \$20,000,000 dry fund amendment to the first deficiency bill.

Administration leaders backing Mellon today claimed victory and one of his leading opponents privately agreed with them.

The test is scheduled in consideration of an extraordinary rule which would send the bill to conference with the Senate, without giving the House a prior opportunity to register its stand on the amendment.

Both the Harris amendment, by which the Senate added \$20,000,000 to the present prohibition fund of approximately \$220,000,000, and the McKellar amendment, requiring public hearings and open decision on tax refunds above \$10,000, were not in debate in consideration of the rule.

A third Senate amendment providing \$20,000,000 for the proposed prohibition investigation of President Hoover was not expected to meet opposition.

It was expected a further amendment broadening the scope of the proposed Hoover inquiry to include national crime conditions would be suggested.

You NEVER have to leave your pride at home

Most Americans feel that nothing is too good for their families and themselves. That's only natural. And because of the age we live in, this feeling applies especially to their automobiles.

Yet a large proportion of them do not want to pay up into the thousands to get fine automobiles. Some day many of them will be glad to. But in the meantime, they're progressing. They want to step up in motor car quality. Then what are these up-and-coming Americans to do?

Fortunately, now there is an answer. It is provided by Oakland's latest creation—the New Pontiac Big Six. Now big car qualities come within the reach of nearly everyone. Now you never have to leave your pride at home.

You can drive a New Pontiac Big Six and be proud of the big car manner in which it performs. It has big car speed. It develops big car power. Its big, new L-head engine produces both. Big car

LEADERS MEET IN MOVE TO END BIGOTRY

New York, Jan. 31 (INS)—Elimination of religious bigotry and intolerance was the underlying theme discussed today at a religious seminar being held at Columbia University, and attended by more than 150 leading ministers, educators, jurists and professional and business men from all parts of the country.

The meeting is under the auspices of the national conference of Jews and Christians.

Rabbi Isaac Landman, editor of the American Hebrew, and one of the speakers, said that among the questions the seminar must discuss with absolute frankness "is the one why there should be economic discriminations between Roman Catholics, Protestants and Jews in employment and other ways."

Another advocate of a fight on bigotry was President Nicholas Murray Butler of Columbia University. He remarked, without, however, mentioning the presidential campaign that "all Americans who love religious liberty. The events of the summer and autumn must have brought shame and humiliation."

RECOMMEND U.S. WORKHOUSE AT BOSTON

Washington, Jan. 31 (AP)—The construction of two penitentiaries and a hospital for the criminal insane were among the major recommendations of a special House committee investigating conditions in the House.

In addition, as further means of relieving congestion in federal penitentiaries, the committee recommended a national institution authorized under the Porter bill be constructed as quickly as possible, the reformatory at Chillicothe, O., be pushed to completion, and federal jails or workhouses to care for short term and detention prisoners be authorized.

The committee suggested one of the two additional penitentiaries be located in the northeastern part of the country, and the other at such a place as experts might determine. It recommended the jail or workhouse be located at New York, Boston, Philadelphia, Baltimore, Cleveland, Cincinnati, Chicago, St. Louis, San Francisco, and such other places as the needs from time to time shall require.

The committee said legislation to carry out its recommendations would be presented promptly in Congress.

Other recommendations included enlargement of the office of superintendent of prisons and enactment of a law to establish a parole board to act upon applications with requiring approval by the attorney general.

The report suggested all military prisoners now held in civil penitentiaries be transferred immediately to the United States military barracks, and all military prisoners be accepted in the "already crowded" penal institutions.

Due to the lack of a proper program and to the tremendous increase in the number of persons committed, the committee said the penitentiaries were overcrowded with persons sentenced to prison for more than one year.

The committee found that the Lowmeyer penitentiary now has more than twice the number of prisoners it is able to accommodate, the report said.

In both of these institutions there exists the vicious practice of "double up" or placing two prisoners in single cells. Men are sleeping in dark, ill-ventilated basements and corridors, improvised dormitories are in use, the kitchen and mess facilities are overloaded to more than twice their proper capacity.

Capt. George Fried, heroic rescuer, says: "Reach for a Lucky instead of a sweet."

"AN S.O.S. from the 'Florida'! We change our course. We on the 'America' strain to arrive in time to rescue the men on their sinking ship, 350 miles away. Through the icy, freezing storm and high seas we plunge on—all speed ahead! Then the night-time rescue, the search lights, the whirling waves, the manœuvering to get near the 'Florida'. Finally, the 'Florida's' crew coming off one at a time, pulling themselves through the water on the line our men had thrown them.

"These 32 men, dazed, many half clothed, needed reviving after their long exposure. Hot coffee, food and Lucky Strikes—these gave new life to many of them and we on board the 'America', crew and passengers alike, found after the strain and struggle that there was nothing quite so comforting and relaxing as the inviting, toasted flavor of Lucky Strikes.

"Playing this game with 'Davy' is ever fascinating, ever thrilling. And we who follow the sea must be ever ready for adventure. Ours is an active life, demanding nerve control and physical fitness. In my health program I have found that Luckies are most important not only because they provide a respite for frazzled nerves and an exhausted body but because whenever I crave anything which is over-fattening, I say to myself, 'Reach for a Lucky instead of a sweet'. In the toasted flavor of Luckies, I get complete satisfaction. And I find that toasting, by removing the irritants, protects my throat."

Throat Irritation—No Cough

Note: Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during the year 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

AUTO FREIGHT LINE OPENS

Providence, Jan. 31—A motor freight service between Providence and 32 other Rhode Island and Massachusetts cities and towns was inaugurated today by the Short Line Motor Freight Service, a division of the Short Line Omnibus Corporation, headed by William H. Vanderbilt.

The interest of Vanderbilt, who is a senator in the extension of freight and passenger transportation is taken as an indication that he is following closely in the footsteps of his father and grandfather, both of whom were identified with the transportation industry.

Vanderbilt's Short Line and its subsidiary now operate almost 500 passenger coaches in Rhode Island, Massachusetts, Connecticut and New York. Ten large trucks were available today.

SNOW FLURRIES, THEN COLDER

A moderate storm area, due to pass the western border of New England tonight on its way northward, will precipitate snow flurries hereabouts before morning and will effect a continuance of the agreeable mercury marks for at least 24 hours longer.

The local forecast here predicts colder weather in Boston tomorrow as the foggy for morners eastward, but adds the cheerful prophecy that the section will escape the full brunt of the wintry blast.

Forecast for Boston and vicinity: Friday fair and colder; moderate shifting winds becoming northwest; the minimum temperature tonight will be near 20 above.

This extravagance menaces health

To brush teeth and forget gums, is an extravagance that may demand as its price health, beauty and youth. In this life of ease and luxury, gums are undernourished and underexercised. If neglected, they surrender to disease that sweeps the system and often cause loss of teeth. Only dental care can stem the advance of gum diseases once they are contracted. Prevention is easier and less painful.

Be liberal with yourself. See your dentist every six months. Continue to brush your teeth. But also brush gums vigorously with the dentifrice designed to help keep them firm and sound... Forhan's for the Gums.

When you have used this dentifrice for a few days you'll notice a vast improvement in the way your gums look and feel. In addition, note how effectively and safely it cleans teeth and helps to protect them from decay. Get a tube of Forhan's from your druggist and start using it today.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with twofold action: it soothes and breaks the inflamed membrane and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agents for coughs from colds and bronchitis. Creomulsion contains, in addition to creosote, other healing elements which soothe and lead the inflamed membrane and step the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the cold and checks the growth of the germ.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritation, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

LA CAPTIVA E
AUDIENCE
By MOSES SMITH
The appetite of Boston music lovers seems to grow with what it feeds on. The evidence of this appetite—enthusiasm of audience—has grown steadily since the beginning of the Chicago Civic Opera company's present engagement, so that it is possible to report that yesterday's audience at "La Boheme" in the afternoon and "Aida" in the evening indulged in the degree of excited applause that is supposed to be an earmark of grand opera.

Both of these operas are comparatively old, but they still retain much of their charm for even the experienced opera-goer. Puccini's semi-romantic, sentimental opera of youthful happiness in love ruined by tragic death has an appeal for all ages. The story is at least plausible, while the opera libretto is not, and is sentimental without being maudlin. The music is honest, even its native adding charm; the score is melodious in almost every page. And it is melody, grateful to sing as well as to hear.

Verdi's more spectacular "Aida" is first of all great drama, content in the essential elements of dramatic conflict. Musically, it is less than ahead of the competition of other operas. In it Verdi brings to show the influence of the Wagnerian music-drama.

PERFORMANCES EXCELLENT
There are still set airs and concerted numbers, but the musical development is sustained as never previously in Italian opera. The orchestra asserts its importance with increasing emphasis. It was also interesting to note, last night, Puccini's introduction to the score of "Aida".

The performances of both operas were of a calibre to assist the education of the audience. That "La Boheme" was the more novel, though it might have faded some of the individual brilliancy of the evening. This was as it should be. Puccini's opera had to come off with great singing alone. Verdi's ending and supporting parts enter into the spirit of the composer, and interest him more according to his obvious intent.

Thus the Chicago company accomplished. In addition the singing was excellent, with the character of Edith Mason, as Mimì, and Antonio Costa, as Rodolfo, naturally taking principal honors. Luigi Montanaro employed a fine baritone voice in the character of Marcello, while Virgilio Lazzarini in Cuiusville's music in the character of the first time during the present season.

HIGH QUALITY CAST
Teresa Pavlovna was the Muzetta of the evening. The behavior of Mr. Moravani conducted a particular which was in many respects similar to the previous excellent production of "Bohème" in the city.

The presentation of "Aida" was the most successful of the evening. The cast of the company here made her triumph, receiving a great ovation at her first curtain-call. As to her singing, it was the most brilliant of the season, and she sang with great ease and confidence. With only slight exception, the production was of high quality.

Cyrena Van Gordon was more than satisfactory as Amneris. Her control of the dramatic situation was an exceptional figure, supplementing her imaginative use of gesture with vocal coloring in every vividly dramatic scene. Her great role in grand opera. Miss Van Gordon knows how to express emotion vocally without shouting, or without using speaking tones.

I suppose I ought to mention that the evening, but I have no enthusiasm for the task. There is clearly a singer who realized the potentialities. He is the one robust tenor of the company, a voice of naturally beautiful, virile quality.

BONELLI RESOURCEFUL
But it is so choked up in actual use, that the audience only rarely gets the benefit of it. Historically, Bonelli does little more than go through the motions. A Boston observer finds it difficult to account for the enthusiasm with which Bonelli's every appearance is greeted. Richard Bonelli, who played Amneris, has increased in artistic stature since last season's production, greater resourcefulness in portrayal of character. There were fewer occasions of his overdriving a brilliant voice of which he might be proud.

The mere mention of the name of Richard Bonelli, the stage director, was in great measure responsible for a performance that was spirited and brightly directed. He is a man of great talent, and beautifully set. Only the first scene failed to live the imagination.

Mr. Tolocco as the conductor's clearly a singer who realized the potentialities. He is the one robust tenor of the company, a voice of naturally beautiful, virile quality.

Man, Go Get a Dozen Hats and Be in Style!

Philadelphia, Jan. 31 (AP)—The well-dressed man should have at least 30 suits in his wardrobe, a dozen hats, eight overcoats and 24 pairs of shoes, the fashion board of the National Association of Hatters declared today. In its report to the association's convention, the board declared that the latest novelty for spring would be a man's grey sack coat and a dark grey suit with a contrasting grey striped waistcoat and grey derby hat, with collar and neck or bow tie.

"Women are making men's hats more important," declared Raymond U. Everett, of New York, chairman of the fashion board.

In presenting his report of the state trend in 1929, "Today style is the compelling, sales factor in every line of merchandise, from automobiles to pajamas; even dish washing machines are being offered in new styles to harmonize with the latest fashion of the kitchen."

"A man who wishes to relax should have at least six suits of various styles. The No. 1 suit, jacket is the correct style, with buckles for the cuffs and pockets, and a contrasting grey striped waistcoat and grey derby hat, with collar and neck or bow tie."

"Women are making men's hats more important," declared Raymond U. Everett, of New York, chairman of the fashion board.

BIG CHURCHES GEN. HORTON TO WILL UNITE PRACTICE LAW

Pittsburgh, Jan. 31 (AP)—The United Methodist Episcopal Church, reached at a conference of representatives of the two churches, agreed to a resolution recommending the organization of the two churches and appointing two joint committees to consider questions of policy, doctrine, and discipline, and to report to the next annual conference of the two churches.

Final consummation of the union cannot occur before 1932, and whatever action is taken by the joint revision committees will have to be approved by the Methodist General Conference.

A term of the battle of San Juan Hill in the Spanish-American War, Horton has seen service in two Philippine campaigns and in the World War. Every soldier in his command at San Juan Hill was killed or wounded.

BOSTONIANS OF NOTE SAILING SOUTH FOR TROPIC HOLIDAYS—BETTY ALDEN

Albert Burrage, Jr., Plans Stay in Guatemala

A STEAMSHIP OF THE GREAT WHITE FLEET, the Tiltus, sails serene southward these days on sumptuous seas that are blue and unflecked as the skies above, and equally untroubled. There is a happy company aboard, with a Boston representation of certain importance. Persons of the Army, and of Society and the professions are traveling. The social game played in tropic setting is attractive. So is a leisurely tropic interlude devoted to rest and recreation. And certain ones are on the trail of high adventure. They are gentlemen of means who have sloughed off sophisticated trappings and trek in primitive manner to certain ancient, just discovered civilization.

ALBERT BURRAGE, JR., BOSS TONIAN of the Bostonians, heads south with his objective Guatemala, where a revolution seethes up interestingly with a comic opera frequency and where there are mountains to be journeyed into. Both Mr. and Mrs. Burrage are Tiltus' passengers who disembark for Guatemala City, where Mrs. Burrage will remain a guest at the smart tropical hotel, the Palace, while Mr. Burrage, with pack train into the mountains for a month's excursion.

AND SINCE THE BURRAGES, Mr. Alden is in the tropics, it is quite likely that when they travel north once more something rare and exotic to the way of orchids will be tenderly transported in their luggage, to be added to the senior Burrage collection. Albert Burrage, Sr. is famed up and down the land as grower and exhibitor of marvelous orchids, and once upon a time supplied journalistic headlines with a \$20,000 specimen of the tropical beauty. A show line of the Burrage orchids is a treat to ravish the eyes of everyone; they are regal.

THAT GENTLE GENTLEMAN who wears two stars on his shoulders and directs the First Corps Area, Maj. Gen. Preston Brown, is aboard the Tiltus. Mrs. Brown is with him and also Mrs. Brown's mother, Mrs. Elizabeth Burrage, and of company party is receiving the attention and deference due its exalted status. I believe present plans of the Brown party include a stay in Jamaica of more than a week for the feminine members thereof, but the general comes North again much before then, to his post of

high command in Boston's military life.

THE BIG ROUND WORLD OF the traveler, but your dreadnought golf man is true to his sports love, first and foremost, whatever time he may have in. Channing Fox, ex-governor of this fine old

Ex-Governor Cox to Play Golf in Jamaica

whirlwind on skates, Miss Maribel Vinson, went across with the Olympians of the ice. She held the gallery breathless last evening as the Prima Ballerina, a spirited figure in her green tulle skirts and fiery hat. Miss Vinson has professional finish and poise, and the clan for her art that goes with her 17 years. The constellation also included Miss Dorothy Weid, a clever performer, and last evening smart in her Russian costume of orange and black.

ENERGETIC PROGRAM SELLERS in the lobby at the Arena gathered in many quarters to aid the Elizabeth Peabody House

fund. And they came, the vendors of these necessary adjuncts to the evening, from the 1st or League ranks. The prohibition this winter has surely done more than triple her quota of "dare" if all the hours she has served at benefit are counted in her score. Miss Ruth Lyman, Miss Eleanor Clark, Miss Carolyn Reed, Miss Virginia Cowles and Miss Helen Nichols were of the faithful ones aiding Peabody House via the ice carnival.

SHALL THE WEDDING GOWN be rich, heavy satin or simple velvet? And whereabouts shall bride attendants be clothed that they may resemble the ladies of the field? These are questions agitating certain brides-elect as late January merges into early February and wedding days loom on the horizon just with the coming of spring. Two attractive girls are "shopping" about these days with their eyes and minds adrift with visions of marvelous wedding raincoat. Clever modistes create the bridal mode and wax enthusiastic as they arrange colors and designs that are the bride's dream come true.

A BRUNETTE BRIDE AND ONE fairer of coloring are thus gloriously employed. Miss Patricia Rhodes, daughter of Mr. Frederick's, former Rhodes of Boston and the North Shore, plans to become Mrs. Arthur L. Coburn, Jr., when she disappears from New England hillsides, and in the spring nuptial ritual will be expounded for slender and fair Miss Louise Thayer, whose betrothal is Francis Tilden Nichols of Oyster Bay, Long Island. Both girls being with the youthful elect of the town, having Junior League and Vincent Club membership, the landmarks of excellence in Boston Mayfair.

FIRST IN THE HEARTS OF Boston come always that tried and expert pair, Mrs. Theresa Weid Blanchard and Nathaniel William Niles. As the Court Pair, which last evening skated so marvelously, they had no peers, and were brilliant as would be in their skating costumes of gaily patterned and velvet-trimmed as a la Russe. It is very clear, even to one who knows not the intricacies of eighth and double scrolls, why Mrs. Blanchard and Mr. Niles headed the Olympic team that were the United States skaters and were qualified to meet all contenders at St. Moritz last winter.

IT WAS VERY CLEAR ALSO why that little and expert

The first thing that I will object to, Connie, is this matter of making a differential between a home and a public career for a woman.

Better turn that and plan to make your life interesting. I make my career of it. I am married. I am a mother. Whatever you do (with your social and sensitive disposition) I advise to marry "for a home."

London, Jan. 31 (INS).—Following closely upon reports that Leon Trotsky had been banished from

Soviet territory came an Exchange Telegraph dispatch from Helsinki, Finland, reporting the arrest of 26 Americans and Canadian citizens on the steps of a shifting engine. He was brushed off when he came in contact with a coal pocket. He suffered a fractured elbow and a fractured leg.

They held high official positions in the Soviet when Lenin and Trotsky reigned supreme.

The former was Soviet ambassador to Rome at one time. The latter is a former head of the third international. Both were banished

from the Communist party with Trotsky. Kameneff is Trotsky's brother-in-law.

Make system alkaline to ...Stop Colds QUICK!

Get Rid of Colds Before They Weaken You, Make You Liable to More Serious Troubles . . . The Method with Highest Medical Endorsement.

Most any of the older treatments for colds will bring relief—*after* some time. Nowadays, it's important to stop your cold quick; before it weakens you; makes you susceptible to more serious trouble. Here's the new, quick treatment for colds; the method with highest medical endorsement; the way thousands say brings the quickest relief for colds they've ever experienced.

Begin when you feel a cold coming. Take a table-spoonful of Phillips' Mixture at intervals in a glass of water, morning, noon and night, the first day. Do the same thing the second, third, fourth, fifth and sixth days. Colds reduce the alkaline balance of your system. That's what makes you feel achy, feverish, weak, half-sick. Phillips' Mixture of Magnesia is an alkali in itself, harmless, palatable form. It relieves the symptoms of colds by restoring the alkaline balance of your system. Doctors prescribe Phillips' Mixture of Magnesia: linerals use it; millions use it. It helps you sleep, soothes your stomachs, aids digestion, constipation and other symptoms of too much acid.

Be sure you get genuine Phillips' Mixture of Magnesia. Look for the name Phillips on the bottle. All druggists have the

If you're a runner, you know that your feet are the most important part of your body. That's why you need to take good care of them. The best way to do that is by using a good foot powder. It will keep your feet dry and prevent blisters. It will also keep your feet smelling fresh. So, if you're a runner, you should definitely use a good foot powder. You can find it at your local drugstore.

Sharkey-Stribling-Conway-Mr. Boston—To Cover Fight for the American

Chalk up another exclusive beat for the Boston Evening American.

Realizing the importance attached to the Jack Sharkey—Young Stribling bout in Miami, Fla., on Feb. 27, by its readers, the American has made arrangements to give the fans daily stories by the two contenders.

In this way, and in it's way only, can local fans keep informed as to just what is going on at Miami both in front of and behind the scenes.

Until a week before the battle, Jack Sharkey will send three stories weekly and Stribling a like number, so that one

or the other will inform our readers of what is taking place every day of the week.

And during the week preceding the fight, each will send a story every day.

In addition, Jack Conway, noted boxing editor of the Boston Evening American, and his omnipresent pal, Mr. Boston, will arrive in the land of grapefruit tomorrow and they will start at once giving the folks at home the low-down on every angle to this most important heavyweight fistic encounter.

The winner of the melee will be generally recognized as Gene Tunney's successor to the world's heavyweight championship. Consequently everybody is interested in the affair and wants to have an idea of the chances of the rivals before they step into the ring.

No other paper will afford its readers as good an opportunity to follow things as the Boston Evening American with Jack Sharkey, Young Stribling, Jack Conway and Mr. Boston furnishing exclusive copy daily.

Don't miss the first articles by Conway and Mr. Boston on these pages.

And, above all, don't miss the stories by Sharkey and Stribling which will start on these pages next Monday.

Remember! Conway and Mr. Boston every day, Sharkey three days a week and Stribling three days a week until the final week. Then all four every day.

And, remembering this, don't forget to go at once to your newsdealer and reserve a copy of the Boston Evening American daily.

YOU CAN BREAK THE LAXATIVE HABIT

This constant taking of laxatives, the dragging of the bowels and the inevitable weakening of the muscles isn't necessary. It can be stopped—stopped effectively—stopped with Thalax.

Thalax brings prompt relief from constipation. But it does so without forming the habit of constantly doing to keep the bowels working. Instead, Thalax aims to break the medicine habit. For it gradually strengthens the bowel muscles and restores their natural action. With the result that after a reasonable length of time, you should need no more medicine, except in rare emergencies.

If you suffer from constipation do at least try Thalax. A tablet or two at night will bring the desired relief in the morning—without griping or distress. Continue Thalax at intervals until your movements become normal, then you won't need to continue taking it, for the improved condition will last.

Thalax is found in leading drugstores. Batches of 50 tablets 55 cents. If you don't have it in stock, send direct to K. A. Hughes Company, Boston, Mass.

Guarding Against

the FLU

Any cold can mean the flu; the surest way to avoid flu is to avoid colds.

To avoid coming down with a cold make prompt use of Bayer Aspirin.

Don't wait to see if that first sneeze or cough is going to be a cold. Take Bayer Aspirin at the first sign of any cold, and be safe.

And whatever you do, don't neglect a sore throat these days; gargle with Bayer Aspirin and remove the infection.

Guard against the flu by guarding against the colds that make you susceptible to the flu germs that lurk in crowded and poorly ventilated places.

People afflicted with bad breath mark relief through the use of Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath, for all who know them, Dr. Edwards' Olive Tablets are greatly liked for the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. Olive Tablets bring no griping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with liver and liver complaint, with the attendant bad breath and bad odor.

Olive Tablets are purely a vegetable compound and contain no oil or any other harmful matter for the body. They will know them by their own color. Take night and day. Put into the effect. For 30c, 60c, All Drugstores.
